

## USB and FireWire Custom Cables

**Mission** - You think it – We will develop it!

**Quality** – We will develop any type/form of USB or FireWire cables or adapter to meet your exact specifications. Development process will be within our outsourced manufacturing facility in Taiwan. All custom manufactured USB and FireWire cables meet USB 2.0 and/or IEEE1394 Standards and will be RoHS Compliant. We will also back each cable with our “100% Performance Guarantee” – to help you buy with confidence.

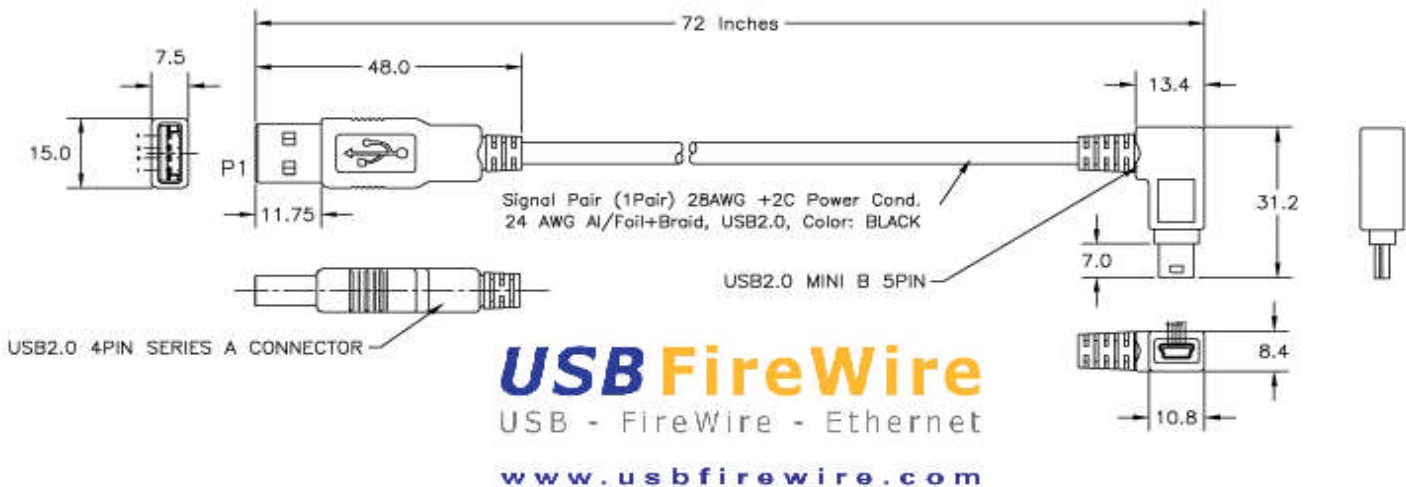

### Why would you choose us to develop your new design?

- 6yrs experience within the industry
- Solid reputation with several outsourced manufacturers in Taiwan
- Short lead times – (normally around 4-6 weeks) – from design acceptance to product delivery
- Economical prices for developing and manufacturing custom USB and FireWire cables and adapter

### Current Markets and Applications:

- Prototype Developers
- Robotic Engineering
- Mechanical Engineering
- Custom Cable Projects
